1. Set the **key switch** located on the instrument panel to the position « **ON** ».
  2. The **forward-reverse** control is located on the body panel at the bottom of the seat. Press **F** to go forward and **R** to reverse.
  3. The **accelerator pedal** is the one on the right with the word "**GO**" written on it. When you press the accelerator pedal the **parking brake** will automatically apply and the vehicle will start.
  4. To engage the **parking brake**, press firmly on the pedal marked "**STOP - PARK**". \* Also press the small section marked "**PARK**".
  5. **Charge the cart**
    - A)** Plug the charger into a 15 AMP (standard) outlet. Do not use an extension cord.
    - B)** Plug the gray tip into the receptacle under the forward-reverse control.
    - C)** Leave plugged in until the charger stops.
- **Autonomy** varies greatly depending on several factors; difference in level of terrain, load weight, temperature, full starting load.
  - **Check the maintenance switch** if the cart does not operate. The switch is under the seat on the panel behind the batteries. It must be in the "**RUN**" position for the cart to operate.
